

## Driver Education Programme

### ECO Drive

Accredited by the Energy Savings Trust

At SAT we believe it is important to deliver driver coaching through a targeted approach. Not all drivers are the same and will have varying degrees of driving experience, driving aptitude and driving confidence. Our Driver Education courses are designed to support ongoing continual professional development for all drivers.

#### Course Benefits

- Increase Fuel efficiency; MPG and maintain miles per hour
- Develop driver education and understanding for the core principles of Defensive Driving.
- Improve driving standards and reduce driver incidents

#### Course Syllabus

- Short classroom theory session - Overview of highway code, driver and vehicle safety
- Practical vehicle check
- Coaching Ratio 1:1 OR 1:2
- Majority of the half day session will involve the delegate completing a practical on road coaching session, upon completion the Trainer will complete a driving assessment
